

# AI LAUNCHPAD 5: ROADMAP FOR SAFE AND SECURE FUNCTIONAL AI

with Digital Command

## Scale Functional AI Deployment for Impact

Embed AI into a core business function—HR, marketing, sales, or operations—to drive intelligent automation and data-driven decision-making.

For leaders, departments, and teams ready to optimize and scale AI functionally in the enterprise (e.g., HR, Customer Service, Marketing, Sales).

This engagement delivers fully integrated, automated, and optimized AI, ensuring enterprise-wide adoption within a well-scoped function, with ongoing support for long-term success.

## Engagement Steps

- **Phase 1: AI Expansion Strategy** - Define high-impact AI use cases, align AI with business goals
- **Phase 2: AI-Powered Process** - Automate workflows, integrate AI into key tools
- **Phase 3: AI Analytics & Performance** - Deploy dashboards, track AI impact, and refine AI models
- **Phase 4: AI Adoption & Scale** - Train teams, expand AI capabilities, and ensure long-term AI automation success.

## What We'll Accomplish Together

- **Function-Specific AI Enablement** – Identify AI-driven use cases, align with industry best practices.
- **Process Automation & AI Workflows** – Automate repetitive tasks, integrate AI into key systems.
- **AI Analytics & Continuous Intelligence** – Implement AI dashboards, enable real-time insights.
- **Scaling AI for Competitive Advantage** – Expand AI, reduce costs, enhance team productivity.

## Outcomes and Results

1. **Automate the Right Workflows** – Free up time for strategic initiatives.
2. **Increase Efficiency & Productivity** – AI eliminates bottlenecks and accelerates execution.
3. **Leverage AI for Smarter Decisions** – Gain real-time insights for better results.
4. **Stay Competitive** – AI-driven automation keeps your function ahead of the curve.
